## FEDERAL SUPPLY SCHEDULE PROGRAM

The Federal Supply Schedule Program provides Federal agencies with a wide variety of supplies and services. Under the Program, GSA enters into contracts with commercial firms to provide supplies and services at stated prices for given periods of time. Schedules are then published to provide ordering data for these contracts. The program is designed to allow Government agencies the option of ordering standard commercial items in varying quantities, while still enjoying the discounts associated with volume purchasing. Orders are placed directly with the schedule contractors and deliveries are direct from the contractor to the customer.

### WHAT IS THE SPECIAL ORDER PROGRAM?

The Special Order Program covers items with National Stock Numbers (NSNs) or items with a manufacturer's part number. Special Order Program items are generally covered by term contracts or other established arrangements. Items are ordered from GSA and delivered directly from the vendor.

Many former Federal Supply Schedule items that have converted to the Special Order Program now can be ordered directly from GSA using the simplified, on-line Multi-Use File for Interagency Needs (MUFFIN) requisition system, FEDSTRIP or MILSTRIP.
